# AURA MINI

Aura speaker series has more than audio attributes, it literally lights up. Its name comes from the possibility to add dimmable light into its round shape, turning the speaker into a sconce if installed on wall or a light fixture if installation is on ceiling. It can also be installed outdoor. The speaker has an extruded aluminum cabinet and is available in several finishes.

## SPECIFICATIONS

### Placement Options

On Ceiling | On Wall  
Indoor | Outdoor

### Use

Distributed Audio | Multichannel

### Enclosure

Aluminum, Sealed IP66

### Recommended Amplifier

40W
